

Q) write a c program input number and check number is greater than 10 or not ?

---

Q) write a c program input number and check number is greater than 67 or not ?

---

Q) write a c program input number and check number is even or odd ?

even : number divide by 2

odd : number does not divide by 2

---

Q) write a c program input number and check number is divisible by 5 or not ?

---

Q) write a c program input character : a

apple

otherwise : input is not matched

---

Q) write a c program input character : b

ball

otherwise : input is not matched

---

Q) write a c program input character and check character is vowel and consonant ?

vowel : a,e,i,o,u

consonant :

---

Q) write a c program input character and check character is q,w,e,r,t,y,u,i,o,p : upper line

otherwise : input is not matched

---

Q) write a c program input character and check character is a,s,d,f,g,h,j,k,l : mid line

otherwise : input is not matched

---

Q) write a c program input character and check character is z,x,c,v,b,n,m : lower line

otherwise : input is not matched

---

Q) write a c program input character 'a':

two number

addition

otherwise :input is not matched

---

Q)write a c program input character 's':

four number  
subtraction

otherwise :input is not matched

---

Q)write a c program input character 'm':

two number  
multiplication

otherwise :input is not matched

---

Q)write a c program input character 'd':

two number  
divide

otherwise :input is not matched

---

Q)write a c program input character 's':

two number  
swap number without third variable

otherwise :input is not matched

---

Q)write a c program input character 'w':

two number  
swap number with third variable

otherwise :input is not matched

---
